Program / Call for proposals	Call for proposals 224-G-GRO-PPA-16-9235 "Reduction of youth unemployment and the setup of co-operatives"
Project Title	
Partner interested to join a consortium	Business School of Montpellier, France
Description of the partner	Montpellier Business School, a Grande École, is heir to a long tradition of teaching based on the needs of businesses and markets. While our research activities cover all traditional themes of management science, the principal research theme is entrepreneurship and innovation. Montpellier Business School has adopted the core values of diversity, openness and global responsibility, all inspired by the school's mission: <i>"to train, through our higher education programs, managers that are strong in their diversity, aware of their global responsibility in carrying out their missions, and able to adapt to changes in local, national and international environments."</i> (By 'global', we understand societal, economic and environmental responsibility). Our establishment is composed of different teaching departments and research groups. Some of the Montpellier Business School research professors are specialized in "global" / "responsible" entrepreneurship and would like to advance the setup of co-operatives for young people. Moreover, thanks to its faculty, Montpellier Business School is at the forefront of educational innovation ; thus enabling to adapt itself to a wide range of audience (Bachelor programme, Master programme, Executive MBA, Executive education) in French and English languages as well as to the specific pace of apprenticeship.
Partners sought	
Outline of the project	The call for proposals "reduction of youth unemployment and the setup of co-operatives" has therefore a particular interest for our institution which

Midi-Pyrénées Europe
